Bakken VOC Emission Control Solutions Session

Tuesday, March 23, 2010
10 a.m. – 2 p.m.
Radisson Hotel – 605 E Broadway – Room: New York 1 & 2 – Bismarck, North Dakota
Cost: $35 per person, lunch included

Hosted by the North Dakota Petroleum Council's Bakken VOC Task Force in partnership with the North Dakota Department of Health

This informational session will cover the important issue of the venting of Bakken gases from crude oil production storage tanks. The gases contain potentially harmful volatile organic compounds (VOC) which contribute to ground level ozone.

This informational meeting will define unacceptable VOC levels and discuss measurement techniques and options for controlling these emissions. Industry is working collaboratively with the ND Health Department on this issue.

To register, complete this form and click Submit Form. If paying by check, mail $35/person to:
