

Solid Scavenging Systems

Solid vs. Liquid Systems:

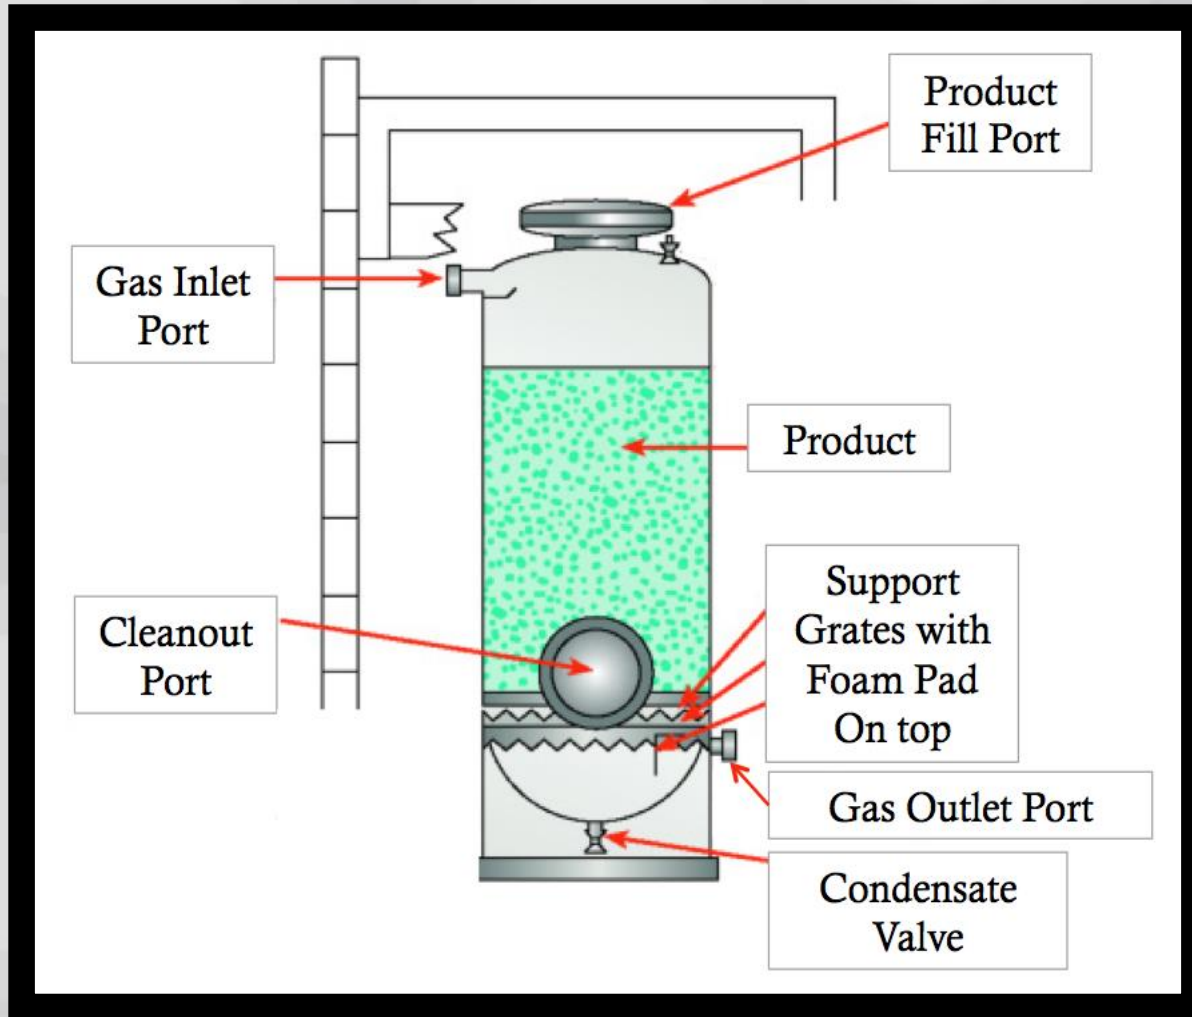

Solid vs. Liquid Systems:

	Solid	Liquid
Performance - "H ₂ S removal effectiveness"	✓	
Clean out – "Ease of clean out/refill"	✓	
Start up cost – "Cost of initial system set up"		✓ *
Ongoing cost – "Monthly operating costs"	✓	
Operational simplicity – "Complexity of H ₂ S system"	✓	

* This is true only for "direct injection." Else, this check moves back to solid, as infrastructure costs for Ultrafab and bubble tower installations are the same as solid.
